To Whom It May Concern:

I would certainly recommend the services of Tenurgy to any company. We began working with Tenurgy in February 2017 to audit and analyze our utility and telecommunication bills. This audit cost us no upfront fees, and we had nothing to lose because Tenurgy only gets paid if we realize savings.

After an in-depth analysis, Tenurgy found a savings opportunity overlooked by our utility company. They quickly worked with the utility company to correct the issue and we are now realizing savings on a monthly basis.

Tenurgy's staff has the knowledge to drill down into the details of your invoices and find any discrepancies. They also have the personal contacts and experience to correct any incorrect billing quickly and efficiently.

We are very happy with our experience with Tenurgy, and I would highly recommend their services to any business looking to save on their utility expenses.

Sincerely,

A handwritten signature in cursive script that reads "Joe Hausbeck".
