

Re: Letter of Recommendation Tenurgy

To Whom It May Concern:

Arvco Container Corporation was referred to Tenurgy from one of our customers. They had encountered favorable results reducing their utility expenses and thought we may have a similar opportunity to lower our expenses. Since there is no upfront expense and none of their recommendations are mandated, we had nothing to lose.

The audit process started with a Consulting Services Agreement, Letter of Authorization and one copy of each of our invoices. Within five weeks, Tenurgy had presented us with a detailed report on our utilities identifying savings opportunities of over 25%.

Because of Tenurgy's thorough review, Arvco Container Corporation has realized substantial savings. We are confident between their knowledge of our utilities and their continued monitoring that we are well positioned to compete in our industry.

Sincerely,

A handwritten signature in blue ink that reads "Dave Rentschler".
