To Whom It May Concern:

Port Huron Hospital engaged Tenurgy to review all of our utilities (electric, gas, telecom, water/sewer and waste/trash). Our experience was world class. The audit process was un-obtrusive; they indentified \$400,000 in annual savings on our accounts and worked with us, at our own pace, to implement the savings.

I was amazed at the items found as part of the audit process. Tenurgy found savings for Port Huron Hospital on services that we would not have found on our own.

They contract under a no risk agreement (they don't get paid unless they find savings) so we had nothing to lose. We highly recommend using Tenurgy as a utility auditing firm and hope you will be surprised by the results.

Sincerely,

A handwritten signature in black ink that reads 'John Liston'. The signature is written in a cursive, flowing style.
