

Belding Area Schools

The right size. The right choice.

Dan Feuerstein • Director • Facilities Department

January 26, 2018

To Whom It May Concern:

Belding Area Schools began working with Dan Katzman at Tenurgy in early 2015. Dan explained the benefits of the utility audit, walked us through the audit process, and helped us get started.

With a current copy of our utility bills and a letter of authorization, the audit team had all they needed. A few weeks later we had a detailed report outlining several areas that could lead to savings opportunities. Once we decided to move forward with their recommendations, Tenurgy implemented on our behalf and continued to monitor our accounts to ensure we were receiving accurate billings.

Over the term of our agreement Tenurgy was quick to respond to any questions and continued to offer assistance if needed. Tenurgy's staff is very knowledgeable and helped us realize substantial savings on our utility bills. The whole experience has been beneficial for Belding Area Schools and we recommend Tenurgy's services to anyone interested in lowering their utility expenses.

Sincerely,

Daniel J Feuerstein
Director of Facilities
Belding Area Schools
