To whom it may concern:

HealthPlus was first introduced to Tenurgy by the Michigan Chamber of Commerce in an effort to help keep our utility costs low. Their utility audit was presented as a no cost service that would help identify areas in which we could save money on one of our larger expenses, our utility bills. Tenurgy did just that. They quickly confirmed the majority of our accounts were billing correctly, while highlighting a few areas in which we could save money.

Since we were pleased with their recommendations, expertise, and proficiency when HealthPlus merged with Health Alliance Plan (HAP), it made sense to have Tenurgy review all of our HAP utility billings. Tenurgy was able to secure an electric refund for our headquarters in Detroit, MI.

The merger allowed HAP to form a single, stronger, more resilient health insurance company that offers affordable benefit plans throughout Michigan. We can say confidently with Tenurgy's help we are keeping our utility costs as low as possible so that we can focus on our core business.

We have worked well with Tenurgy and highly recommend their audit services for saving money on utilities.

Sincerely,

KeJuan Brown
