To Whom It May Concern:

Tenurgy was contracted by Henry Ford College to perform a utility billing audit. The entire process took just over two months and all that was required from us was one month of utility bills and a letter of authorization.

During the initial audit period Tenurgy's team identified an AT&T billing error dating back to 2008. They brought this matter to our attention immediately, as it resulted in a refund of over \$27,000. As they continued to work on our audit, additional telecom savings of \$50,000 were identified.

Along with the telecom savings, Tenurgy reviewed our remaining utility invoices and was able to locate \$25,000 in annual savings with our DTE Energy accounts.

We are thrilled to have formed a relationship with Tenurgy and are confident we are in good hands with their help.

Sincerely,

A handwritten signature in black ink that reads "John Satkowski". The signature is fluid and cursive, with a large initial "J".

John Satkowski
Vice President of Financial Services
